

# EARTHFIRE INSTITUTE

---

WILDLIFE SANCTUARY & RETREAT CENTER  
*RECONNECTING WITH WILDLIFE AND NATURE*

## **DR. SUSAN B. EIRICH**

Known as a pioneering conservationist, Dr. Susan B. Eirich is a licensed psychologist, biologist, writer, and “practical visionary.” She blends insights from nature and human psychology into a new way of understanding our relationship to our Earth and all living beings. She founded Earthfire Institute Wildlife Sanctuary & Retreat Center in 1999 to serve as a global model for wildlife and land preservation. Her message focuses on actionable ways to heal our relationship to nature and ourselves.

Susan created the Reconnection Ecology model, which gives us the opportunity to form a deep connection with individual rescued animals and their unique stories, leading to our own reconnection with all that is wild—including ourselves. Through deep reconnection, we discover new ways of approaching the ecological crises that now confront us.

A sought-after speaker internationally, Susan has taught at universities worldwide. She has worked in super-maximum prisons and lived in far corners of the Earth as a way to enhance understanding between cultures, peoples, and species.
